FRIDAY SEPTEMBER 27 1940

NUMBER 25

## Japan Signs Treaty With Axis Powers

### Golden Wedding Anniversary Observed

The home of Mr. and Mrs. T. O. King was the scene of a happy gathering on Wednesday evening, when three hundred guests, including the family, gathered during the afternoon and evening to extend congratulations to this fine couple, and to enjoy the delicious lunch prepared and served by the daughters and daughters in law.

It was a sort of re-union too, a number of the old timers from the Cardston district where the family first lived being there, also Dr. P. M. Campbell who was a doctor in the Cardston district thirty five or forty years ago, and many other friends of early years who in the interval have scattered all over Southern Alberta were there to enjoy a social evening and extend best wishes to the honored guests for many more happy years together.

Mr. and Mrs. King were married in Malad City, Idaho, Sept. 25th, 1890. In 1892 Mr. King came to Canada to work for the L.D.S. Church looking after their cattle; and it was not until 1896 after he had filed on a homestead and had the "little old log shanty on the plains" ready, that Mrs. King joined him and they set up housekeeping.

Always busy, but never too busy to render service, their lives have been a blessing to all who have had the pleasure of their friendship. Mr. King, "T. O." as he is commonly known has served for years on the School Board, been President of the Provincial Trustees for many years, served on the Town Council, Board of Trade, Agricultural Society while it operated and many other civic offices, besides serving on the Stake High Council, Priesthood Quorum Presidency and many other church capacities. Mrs. King has served for 28 years in the Presidency of the ward Relief Society, and today as it's President is giving freely of her time and goods to the poor and needy of the ward, always present in sickness and death to render those little services so much appreciated in hours of sadness. Such a record of public service on the part of both these people is something of which they have a right to be proud and they are still going strong. With his sons after a number of years in the mercantile business, they have built up one of the finest farms in the district.

Their family of seven grown children, all except Mrs. Dr. Fowler, reside in Raymond and she in Lethbridge, have enjoyed the benefits of a good home and good parental guidance and are amongst the towns leading citizens, serving in both civic and religious capacities whenever and wherever asked.

With the thousands of friends in Southern Alberta, we join in wishing them most sincerely many happy returns of the day.

Nolan Jeffrey, who has been working at Macleod for the past two months came back the first of the week to go to work in the Factory.

Miss Lucille Pyne of Warner is spending a few days here with the L.M. Erickson family. Mrs. Erickson is a sister of Lucille.

#### WEDDING BELLS

##### JENSEN — SNOW

Miss Alice, daughter of Mr. and Mrs. O. H. Snow and Glen H. Jensen of Logandale, Nevada were married in the Cardston Temple on Wednesday, Sept. 25th, with Pres. Edw. J. Wood officiating. The bride's parents and other relatives, and friends were present to witness the ceremony and extend congratulations.

The young couple are leaving for their new home on Saturday, and Miss Alice, will take with her the best wishes of her many friends in Raymond and district for a long and happy married life in her new environment. We extend our best wishes to both young people.

##### WATSON — McLEAN

The wedding was solemnized in the Alberta Temple Wednesday of Leonard D. son of Mrs. James Hawkins, and Laura, daughter of Mr. and Mrs. Oliver McLean, with Pres. Edw. J. Wood officiating. Parents and other relatives of both young people were present to witness the ceremony and extend their best wishes to the young people for a long and happy married life.

After a brief honeymoon they will make their home in Raymond where the groom is engaged in the office of Canadian Sugar Factories, Limited. We extend our best wishes to the happy young couple for a long and happy married life.

The Caterpillar Tractor of the Municipal District was taken to the Woolford district on Monday of this week where it will be engaged in road work until the freeze up makes road work impossible.

### School Fair Features School Work

This year's school fair featuring school work, more than ever before, was a decided success in that respect and there was a great variety of this work and a very splendid array of talent in the work. Some water, color work of Paul LeBaron, who teaches art at the High School, was very commendable showing a street scene in Calgary and a couple of farm scenes which created a lot of interest.

The Educational Award for the Grade obtaining the greatest number of points went to Mr. Hickens' Grade VII class. Miss Vernice Ralph won the first prize in the Magic Baking Powder contest and received a Silver bracelet, and second prize in this contest went to Miss Kathleen Taylor who received a Fountain pen.

These were the only special prizes awarded at the local fair, and next week we hope to have the complete Prize List. Appreciation is due the teachers of the various grades, who besides supervising the exhibits on Monday, when the Fair was held, have spent hours of work in encouraging and assisting the students in preparing their exhibits for the Fair.

People are wondering today, and especially the people of the British Empire, what effect the signing of the treaty between Germany, Italy and Japan will have on the war and world conditions generally. The treaty was signed early today.

Said to be signed because of the refusal of the United States to allow scrap iron to be shipped to Japan, and the \$25,000,000 loan to China, the three power treaty represents a population of 229,000,000 people and will be quite a force to reckon with.

Some people feel that the action of Japan will be a benefit to the Allies as it will put the U. S. government on the spot so to speak and may result in an early declaration of war by her against Japan, which will mean against the Axis powers too. Time will answer the query.

### Quarterly Conference Well Attended

Quarterly Conference of the Taylor Stake of Zion convened Saturday evening and Sunday in the new Stake and Ward House, his remarks were particularly addressed to prove worthy of charge of the sessions and their heritage and be as good as their teachings could make them. After the closing song representing the General authorities of Salt Lake City, accompanied by Elder Geo. S. Ashton, Building Superintendent.

A welfare meeting was held Saturday night, with Stake and Ward welfare workers especially asked to be present. Reports were listened to from several of the projects of the Stake, which include hog raising, wheat raising, beet raising and canning the two Raymond wards having canned over 10,000 cans of vegetables during the past summer. The visitors from Salt Lake spoke on Welfare work in general and commended the success of the local projects.

Two meetings Sunday morning, at 9:15 and 10:30 were devoted largely to Aaronic Priesthood work and the boys between the ages of 12 and 18 assisted in the singing and also in the speaking and the offering of prayers for these services. Ira McBride led the Priesthood chorus in their numbers, and those taking part in the meetings were: Elmer Wilde, Wm. Redd, John F. Salmon, Steele Brewerton, and Bishop Wirthlin, who delivered two splendid sermons to the boys, encouraging them in their efforts and stressing the responsibility that would be theirs in a few years and what activity in their lesser Priesthood quorums would do to assist them to prepare for this work. Joseph Kaler offered the benediction.

In the second meeting the following took part. Mark Dahl, Durrell Romeril, Harlan Taylor, Wm. Wilde, a song by a Priesthood Chorus from Stirling, Stake Pres. T. Geo. Wood, Earl Alston, Geo. S. Ashton and Bishop Wirthlin again spoke centering his remarks around the thought "The Seed of the Past is the Harvest of the Future." He spoke of the increase in the use of tobacco, drugs of various kinds, drinking, and crime, and asked what kind of

At 2 p.m. despite the rain, the records of the Taylor Stake assembled to be placed in a copper box in the corner of the new Stake House, were put into the box inside the building by representatives of the various stake organizations, commencing with ex-Pres. H. S. Allen, the father of the Stake and its President for 33 years. After the depositing of the records and the placing of the name plaque which covered the box, the four screws were put in place by Bishop Wirthlin, ex-Pres. H. S. Allen, Pres. T. Geo. Wood and Bishop Orvin Hicken. Geo. S. Ashton photographed the four as they held the four brass screws in place.

At 2:30 the regular afternoon session of the Conference got under way, and for this session the Stake Choir conducted by W. C. Stone, with Emma Dahl and Roi Stone as accompanists, were present and rendered a fine program of hymns and anthems for the audience.

Elder J. W. Evans spoke briefly on the "History of the Taylor Stake" and Pres. T. Geo. Wood announced the release of Elder E. P. Tanner as Taylor Stake Mission President and the selection of Elder Geo. Thomson to take place. He also announced the appointment of Elders John Steele and Arthur E. Fawns as members of the High Council, and these appointments were unanimously sustained, after which Stake Clerk I. B. Roberts presented the General and Stake authorities for vote.

Elder Guy Alexander and Alma Evans bore their testimonies, having recently returned from the foreign mission field the former from the Swiss-German and Eastern States, and the latter from the Netherlands and the Canadian Mission (Continued on Page 2)

### Raymond Sugar Factory Humming Now

#### WEDDING BELLS

##### McMULLIN — CAMPBELL

Within the flower-bedecked Church of Jesus Christ of Latter Day Saints was solemnized the marriage of Miss Carroll Campbell, daughter of Mr. and Mrs. Irving Campbell of Seattle and Mr. Wayne Pierce McMullin of Seattle, formerly of Bellingham, and son of Mr. and Mrs. A. L. McMullin of Raymond, Alta. Bishop B. Henry Linde officiated at the service Sunday August 25 and the bridal party stood at the altar which was beautified with tall baskets of gladioli, roses and dahlias amid greenery.

The bride, given in marriage by her father, wore a gown of heavy white moire fashioned with full skirt, circular train and leg o'mutton sleeves with white velvet trim. Her short circular veil was held to her coiffure with a wreath of orange blossoms. The bride's bouquet was made with pink roses centering gladioli, bouvardia, pink and white larkspur and a cascade of satin ribbons.

Mrs. Robert Fuller of Seattle, was her sister's matron of honor, wearing yellow taffeta and carrying yellow Marguerites.

The bridesmaids were Miss Phyllis Harmeling of Seattle, in aquamarine taffeta, Miss Beverly Fredrickson, old rose taffeta, and each carried contrasting bouquets of chrysanthemums and gladioli.

Miss Yvonne Linde, of Lynden, was flower girl. She wore pink taffeta and carried a small basket of rose petals.

Mr. Kenneth Robinson was Mr. McMullin's best man, Messrs. Archie Lawson, Alfred L. Linde of Blaine, and Irving Campbell, Seattle, brother of the bride were ushers.

Vocal preludes to the ceremony were "Until" and "O Promise Me" by Miss Beth Teichroew, accompanied by her sister Miss Peggy Teichroew who also played the wedding marches.

The bride donned for going away, a navy blue ensemble with white accessories and corsage of roses.

Mr. and Mrs. McMullin have taken residence in Seattle. Mr. McMullin is a graduate of Western Washington College of Education and he has attended Success Business college in this city. — Bellingham Herald.

### Ladies Save Your Coupons

To assist in the campaign for funds, and to give Raymond housewives a chance to help the local Ladies Red Cross organization, are planning to take advantage of the Procter and Gamble coupon offer, and are asking the ladies to save their Camay, Crisco and Chipso wrappers and box tops and turn them over to the Red Cross so they can be cashed in on for the Red Cross funds.

This is a splendid opportunity for Raymond women to help the Red Cross. It will cost nothing, as we all must use soap and shortening, and possibly a change to one of these standard brands of products would be a delightful surprise to some. We

Raymond's Sugar Factory started the 1940 campaign at 8 a.m. Wednesday morning when beets started from the flumes and through the various machines and treatments that convert them into the fine granulated and icing sugar which is gaining in popularity every day in the household use of Western Canada.

The new installations at the Factory, improving and speeding up some of the filtering processes started up without a hitch and from the first whistle beets kept right on going thru in a steady run, the first sugar coming down about 36 hours after the start.

Outside the beet harvest is getting into full swing with the ground drying nicely Wednesday and bright skies on Thursday, everyone who had received instructions to dig were in the fields and the trucks and tear were making almost a steady line to the scales at the yards. The closing of a number of nearby dumps which were not needed with the increase in trucks and the longer hauls, has brought more beets to the Factory yards from fields within a five or six mile radius.

The storm over the week-end while holding up work a few days, was just what the beet crop needed, adding to the sugar content and also the weight of the beets and making them much nicer to handle, than when taken out of dry ground. It looks like a bigger tonnage than earlier estimates. While the conservative estimate of Factory officials is 298,000 tons, it would appear from the way the fields are turning out so far that the total tonnage for the two factories will pass the 300,000 ton mark, but of course the harvest has not gotten under way far enough as yet to form any close estimate.

It is a busy season in these parts. Combining and threshing are not finished, some farmers not even started. Beets are being harvested, and the start of the factory has taken a number of men away from summer jobs, as yet unfinished back to their posts in the mill. There is no labor shortage but there are very few men out of employment, and big beet growers are putting on all the crew they can get to push the harvest as fast as possible.

Maurice Heninger, LeRay Anderson and Bob Walker, all students of the B.Y.U. at Provo Utah, left last Saturday morning to commence their year's work at that institution of learning.

are not advertising Procter and Gamble, but we do think that their offer of cash for coupons is very commendable, and so long as the Red Cross will take the initiative in turning these into cash, and it is impossible for individuals to do so themselves, it would make a nice little fund, if even those who are at present using these products would save them, and if they would arouse the interest of their friends to try them, between now and the time the offer is withdrawn an nice contribution, could be made to the Red Cross and no one would be any the poorer.

S. I. MAY Editor.

WILL YOU BE ONE?

An army of 2,000,000 regular "War Savers" is sought in a national "Smash Hitler" campaign now opening by the War Savings Committee. It is announced by Messrs. W. H. Somerville and deGasse Beaubien, National Chairmen.

To enable every man and woman in Canada to join this "Army of Two Million Regular War Savers," the Committee has developed, in collaboration with the chartered banks, a special Pledge Form which will be delivered to over 2,500,000 householders from coast to coast. This is one of the largest single mailings ever carried out by the Canadian Postal Service.

By using this new War Savings Pledge form any bank depositor can instruct his bank to invest in one or more War Savings Certificates for him on the 15th of every month. Once the Pledge is signed and handed to the bank, the regular purchase price of the Certificates is deducted each month from the account, sent by the bank to Ottawa, and the Certificates delivered by mail to the depositor's home address or to any other address he may designate.

"This new Pledge plan," stated the announcement by the Joint National Chairmen, "provides any man or woman with an ideal means both of saving money for his own future use, and at the same time of helping directly in Canada's war effort. Most people have found that it is far easier to make a resolution to invest in War Savings Certificates every month than it is to keep that resolution. By using the new Pledge form, the individual overcomes his human weakness, and having signed the Pledge knows that regular investment in War Savings Certificates each month will from then on be automatic."

"In connection with this plan, the War Savings Committee hopes to impress upon all Canadians the fact that when they purchase War Savings Certificates, they are not giving their

money, but lending it, at a reasonable return to themselves. That return amounts to a full 25 p.c. in seven and a half years. We hope by the end of the year that at least two million people will have taken advantage of this new and useful means of building up a reserve of savings for the future."

TIN CAN MAIL REACHES  
C. W. SELMAN FAMILY

Posted in Neiafu, Vava'u, Tonga, a little over a year ago, Mr. and Mrs. C. W. Selman on Monday night last received a letter from their son Barker, who is laboring in the Tongan Islands as an L.D.S. missionary via Tin Can Mail.

There is quite a story in connection with this mail service. Nuafoou, the island where this mail service is operated is an island without a harbor or a beach. Springing up out of the ocean there is nothing but a foot path up its steep and rocky face. When the water is quiet enough for a native to swim in, which is not all the time by any means, and a steamer is approaching, one swims out with the outgoing mail in a water-proof bag and the steamer lets down a line and pulls up the mail and throws the incoming mail overboard in a tin can, hence the name.

There are seasons of the year however, when the ocean is so rough that not even this transfer of mail can be accomplished, so that at times, many boats will go back and forth through the ocean lanes, but not be able to stop at Tin Can Island with the mail, and as a result these natives sometimes have two or three mails three weeks or a month apart, and then they go for four, five, six, or even eight months without a mail.

Of course in our vigorous country where we fret and stew about the delay of a few minutes, this would never be tolerated, but in the island life does not move as rapidly, and people take these things as they come and like them. Needless to say to say the Selmans are happy at receiving this tin can mail, which apparently was addressed in an outer envelope to Tin Can Island and then re-mailed to its ultimate destination in Raymond.

The Deacons quorum of the 2nd Ward had a hike to the bridge country south of town on Saturday.

## HERE'S A LOW COST PLAN TO...

help your studies!

### A New Valuable TOOL IN EDUCATION

Recent tests, conducted by prominent educators, have shown parents, educators, and students that the portable typewriter is a most valuable educational tool. In a dramatic two years series of tests they have proven that most children improve grades as much as 14% when using a portable typewriter.

An unexpected outcome was that, in addition to betterment in Composition, Geography, History, Science and even Arithmetic, self expression became easier even for shy students!

You, too, can have this marvelous educational aid—for Remington Rand makes it easy to get! Only a small deposit, and terms as low as 10¢ a day, will bring you the Remette Portable, other models a trifle higher. Read what prominent educators say about student use of typewriters. Send for Free Booklet.

**FREE!** 32-PAGE TOUCH METHOD INSTRUCTION BOOK with any Remington Portable you buy. It contains lessons, exercises, charts and illustrations to help teach you typing by the touch method.

### SEND COUPON NOW

### AIR RAID BABY

London, Sept 23—While Nazi bombers rained death and destruction on the city, Mrs. Anne Plume, 34, gave birth to a baby boy in an air raid shelter in London, recently, according to a letter which reached Toronto this week from a relative in the British capital.

"I was in the shelter at the time, myself," stated the writer, "and the seven pound boy was born while air raid sirens wailed everywhere. There were quite a number of people seeking safety in the same place but some of them didn't even know what was going on. A soldier, who was with us, kept singing 'Till the Lights of London Shine Again' which I thought was very appropriate as there was a black-out over the city at the time."

"Mrs. Plume has the distinction of being the first mother to give birth to a baby in one of these shelters and she is going to name her son John Anderson, after the Minister of Home Security. There was a write-up in one of the papers the next day and Mrs. Plume told one of the reporters: 'It certainly took my mind off the air raid. Anyway, even for me, it was quite an experience.'"

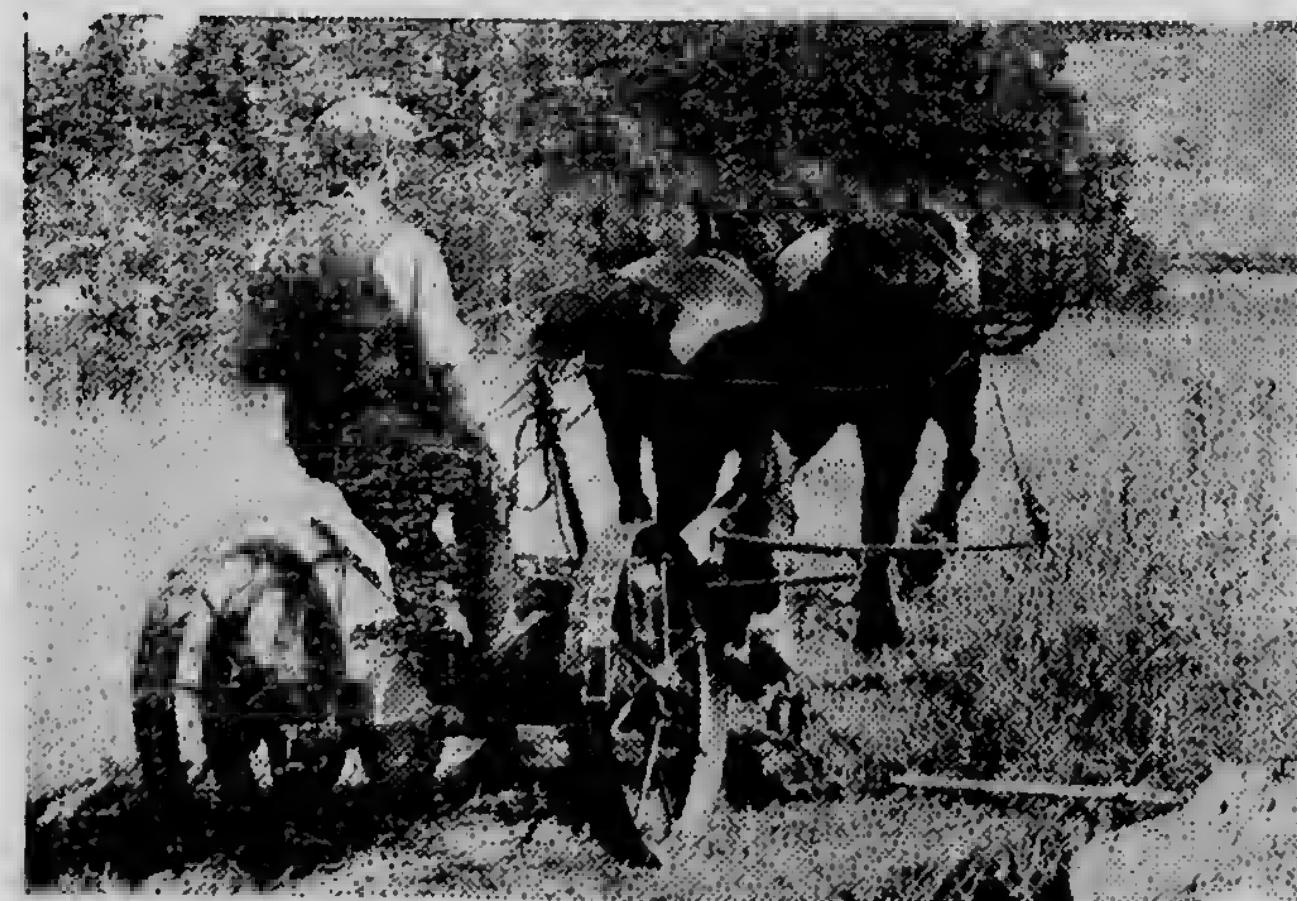

Harry Bland of Taber is back in Raymond again for the Factory campaign.

We hate to think of the frost coming and the ruining of the wonderful and lovely flower beds around the town. We doubt if the town has ever been so lovely with flowers as at present. But winter must come and one of these mornings the blooms are going to be bitten and spoiled. Such is life.

### FRANK KRIZAN FOUND DEAD

Frank Krizan, 42, Czech-Slovakian laborer, committed suicide late Tuesday afternoon in a barn on the Jas. H. Walker farm east of town. His body was found by some of the boys in the evening when they were doing the chores.

He had climbed onto a stall and tied the rope to a rafter and then jumped off the stall, there being only about six inches of space between his feet and the floor. The body was taken into Lethbridge. He was unmarried.

### IN THE MIDST OF WAR

Britain and her Empire is at war, but in the quiet countryside of England peace is still to be found, as, in the sunshine of high summer, haymaking goes on.

### QUARTERLY CONFERENCE WELL ATTENDED

the transfer being necessary because of war conditions in Europe.

Bishop Wirthlin spoke to the large audience on the vital part testimony had played in the founding and growth of this great Latter Day work, and stated that every dispensation of the Gospel from the very beginning of man's history had its roots in testimony. He spoke of personal experiences that had come into his life and of the numerous testimonies he had received from seeing the power of the Priesthood manifest in such a multitude of ways.

Elder Geo. S. Ashton spoke briefly, and Pres. T. Geo. Wood reported the conditions in the Stake and expressed his pleasure at the faithfulness of the Stake members and the fine way in which all the organizations and their officers were carrying on.

The evening session, under the direction of the Stak, M.I.A. was featured by the musical numbers of the Mutual Chorus, who were present in large numbers and rendered a splendid musical program.

The first speaker was Pres. T. Geo. Wood who spoke of the "Home" as the foundation of civilization. He spoke of its responsibilities, its blessings and the wonderful opportunities that were afforded parents to teach, and he urged the youth of the Stake to consider the great blessings that marriage and the home afforded and not to cheapen in their minds its sanctity and holiness.

Elder Geo. S. Ashton spoke briefly on "10 commandments for Teachers" and pleaded with those who are called to teach and especially to teach the youth, to make the most of their opportunities. Be prepared to be dependable, be honest and be human, were among necessary virtues for success in teaching and guiding the youth.

Bishop Wirthlin spoke on the sentiments contained in King's Recessional which was sung by the Chorus and urged the people to remember the Lord in good times as well as in trouble. He drew from his wide experience stories of the direct answer to prayer manifest so many times, and urged all to be diligent, prayerful and faithful.

Elder W. O. Robinson, member of the General Board of the Y.M.M.I.A. who is in Canada to conduct courses in dancing in the Canadian Stakes was the concluding speaker. He spoke of world conditions and said that our youth would have to bring balance and poise out of the maelstrom of the world and urged them to remember the debt of gratitude they owed their progenitors in making it possible for them to be born and living in this land of peace and plenty. We of today, old and young, have a great responsibility in passing the torch onto future leaders, burning even more brightly than when we received it. We shall and must measure up to our responsibilities.

### NEWS NOTES

Mr. and Mrs. A. H. Zabriskie arrived home from Utah Thursday night last week, being away just one week on their trip to Provo.

His Excellency, the Rev. Francis P. Carroll, Bishop of Calgary will officiate at a Confirmation Service at the Catholic Church, Raymond, on Oct. 6th, 3 p.m.

Miss Marian Allen, daughter of Mr. and Mrs. I. F. Allen left on Saturday morning last to enroll for the year's studies at the U. of A. in Edmonton.

Sergt. Sam Dyson was a speaker at the Rotary Club on Monday, relating some of the experiences of the boys during their recent two weeks training at Sarnia. Sam, who is a veteran of the last war, spoke of the progress in methods and equipment since the last Great War and said that training today is almost entirely new even to him. He raised a number of hearty laughs with the amusing incidents that always get into the routine of the camp.

The codfish lays a million eggs, The little hen but one; But the codfish doesn't cackle When her little stunt is done. And so we prize the artful hen, The codfish we despise— Which makes it plain to thought ful men It pays to advertise.

### CHILDREN LOSE TERROR CAUSED BY BOMBING

One Nine Year Old Helps  
"Adopted Mother" be Calm

So many of the children have had to stay in this country after all. How can we help them to grow up unharmed by the terrors of modern war?

There didn't seem much hope of this for Florrie, when she was evacuated from London nine months ago. She was such a nervous little thing, and Mrs. Harper couldn't get a word out of her. The neighbours thought the child was being murdered, she screamed so much over a little cut on her finger one day. "So what in the world she'll be like in an air raid I can't think," said Mrs. Harper.

Six months later Florrie had a very different reputation with the neighbours. "It can't just be the sea air," said Mrs. Brown next door, as she and Mrs. Harper watched the children playing. "Susan thinks the world of her, and she seems to have made friends with everyone in the street."

It was Alice, Mrs. Harper's grown up daughter, who was responsible for this change. In those first days she had talked to the frightened child as she put her to bed and told her about Jesus, and how He would talk to her if she listened to Him. "Can't I do it now?" Florrie had asked. They were quiet for a little while; then Florrie said, "He told me not to worry about Mum and Dad, because He's looking after them."

So, when the air raids started Florrie was calm and helpful. At the first siren the family bundled downstairs, urged on by a nervous Mrs. Harper. Florrie put out cushions and got Mrs. Harper a drink of water.

place in every flower garden. In its numerous varieties are found many shades of colour that adds greatly to the charm and beauty of its delicate bloom. The iris is propagated very easily by dividing the roots of an old plant. This is usually done in the fall at this Station though spring planting gives very satisfactory results.

There is not space to even mention the many other desirable perennials available to the flower grower who is planning a perennial border though other varieties that deserve consideration, to name only a few, are the Iceland and Oriental Poppies, varieties of Columbine, Corcopsis, Gaillardia and Delphinium. All are easily started from seed or by dividing old plants.

serva moisture. In the spring the longer straw of the manure is raked off but the shorter material is forked into the ground near the plants to provide added fertility.

The peony is best planted in the fall where adequate moisture is available and best results are obtained by planting early in September. The varieties are propagated by dividing the roots of the old plants and the divisions are cut so that each will have at least one bud. The plants are set so that the crowns are about two inches below the surface. The plants need plenty of room for full development and need to be set three to four feet apart and in dry land five feet.

Tulip bulbs are usually set out here in October though late September planting is quite satisfactory. In planting the bulbs are set about 8 inches apart and 4 inches deep. Some of the early flowering varieties of tulips grown here include Proserpine, Vermilion Brilliant, Cottage Maid, Duchess De Parma, Chrysolora and Pink Beauty. Varieties of Darwin tulips grown here include Sunset, Clara Butt, Prida, of Haarlem, Gretchen and Bartigon, just to mention a few. The iris is a very easily grown perennial that deserves a

### A GOOD TIME TO PLANT MANY PERENNIAL FLOWERS

Experience at the Lethbridge Experimental Station has shown that perennial flowers are best planted in the fall. No flower garden is complete without perennials and few if any flowers need as little attention when once started.

In preparing the soil some growers trench to a depth of 1 and a half to 2 feet and add well rotted cow manure which is worked into the lower foot or so of trench soil. Care is taken not to apply any manure where it will be likely to come into direct contact with any of the new plants. A good plan is to first remove six or more inches of the surface soil replacing it after the bed has been trenched and manured. In addition to manure, chemical fertilizer is useful. Ammonium phosphate is recommended and it should be applied broadcast at the rate of about 8 ounces to 100 square feet of bed and worked into the soil by spading. At this station the practice is to apply well rotted manure as a top dressing just before freeze up. This covering protects the plants from excessive thawing and freezing, and helps to con-

When the All Clear sounded she said in a loud voice, "Thank you, God!"

"Whatever have we got to be thankful for, child," exclaimed Mrs. Harper, "being dragged out of our beds and having to sit here all these hours?" "Well, we're still safe," said Florrie, "and, anyway, I had to say 'thank you' to God for keeping me calm."

Down in the shelter a few nights later Mrs. Harper said in surprise, "Bless me, I haven't got the fitters."

"You are a nice to be with kind of person," said Florrie.

### FIRST THINGS FIRST

"But you can cook?" asked the prosaic young man.

"Let us take these questions in their proper order," returned the wise girl. "The matter of cooking is not the first thing to be considered."

"Then what is first?" he demanded.

"Can you provide the things to be cooked?" came the answer.

The Financial Post of Toronto had an exceptionally large issue last week and on the way, Effort of the Dominion. Photos of various operations in manufacture of planes, guns and ammunition in plants all across Canada, showed the fine way in which the Dominion is rallying its man power and machinery to the task at hand of smashing dictatorships in the world.

to purchase and to hold the  
products of their farmers and  
others whose European markets  
have been temporarily lost.  
Fifty million dollars of this amount,  
it is thought by some,  
may even be available to Canada  
for the holding of our own  
wheat.

This timely action on the  
part of the United States will  
probably be found to be as effective  
in helping to preserve  
Democracy as was the recent  
transfer of fifty U.S.A. destroy-  
ers to the British Navy.

Following factors have tended  
to raise price: U.S.A. lends five  
hundred million dollars to Amer-  
ican Continental countries with  
which to purchase surplus farm  
and other products — Fodder  
shortage reduces livestock sup-  
plies in Denmark — Preliminary  
reports indicate Europe's wheat  
harvest may be 14 p.c. lower  
than in 1939 — Importation of  
wheat by Japan this year is  
possible as a result of reduced  
rice production.

Following factors have tended  
to lower price: Canadian wheat  
supply for current marketing  
season is largest in the history  
of the country — Seeding of the  
new Argentine corn crop is pro-  
gressing under favorable con-  
ditions, Canada increases cheese  
and milk production for Brit-  
ain — Substantial increase in  
planting of beans is reported  
in Spain.

#### THE WORLD OF WHEAT

(By H. G. L. STRANGE)

Director The Crop Testing Plan

Millions of farmers and other  
workers in the countries of  
North & South America would  
suffer severely, it was thought  
because the normal European  
markets for their products  
have been shut off by the Brit-  
ish blockade.

History reveals that human  
suffering always ends in stren-  
uous protests and in discontent;  
and so it was feared that this  
discontent would finally result  
in pressure being brought to  
bear upon Great Britain to ease  
her blockade against Nazi con-  
trolled Europe, and perhaps  
even to conclude a compromise  
peace with Hitler.

Fortunately for all, the United  
States with foresight and gen-  
erosity, has stepped into the  
breach and has made avail-  
able to the various nations of  
the North and South American  
Continents, a loan of five hun-  
dred million dollars with which

#### CAR AND TRUCK IN COLLISION

A collision Friday night last,  
just near the west edge of  
town resulted in damage to the  
Ford sedan of Albert Winkler,  
and the one ton truck of Wm.  
Boyson of Stirling, with slight  
injury to the occupants of the  
vehicles, although no one was  
seriously injured.

The Winkler car was coming  
into town from the farm, and  
the Boyson truck was proceed-  
ing west, and had just turned  
out to pass a car trailing a  
sheep wagon behind it, when  
they met, the two left front  
wheels both being badly bent  
and the fenders nearly torn  
off in the crash. The car pulling  
the trailer, was also damaged  
some in the accident.

Constable Hawk took charge  
of the investigation, and when  
the case was heard by the Mag-  
istrate on Tuesday with all the  
evidence, the Boyson case was  
dismissed and the owner of the  
trailer, fined for having no  
lights.

#### GOLDEN SNOW AGAIN HEADS A.A.A.

Meeting in their annual meet-  
ing Monday night, with only a  
very small attendance present,  
the Raymond Athletic Associat-  
ion held their annual meeting  
and elected officers for the com-  
ing year.

Murray Holt, the Secretary  
Treasurer presented the finan-  
cial statement for the year, show-  
ing the Association to have com-  
pleted a successful year in most  
of their activities.

Golden Snow the President  
reviewed the activities of the  
Association for the past year,  
expressing his appreciation of  
the support of the other mem-  
bers of the Association and of  
the public of Raymond during  
the past year.

In the election of officers,  
Golden Snow, was the unanim-  
ous choice for President for  
his third term, and Murray  
Holt was chosen Secretary Treas-  
urer. J. Vely Heggie who  
has been Vice President for  
several years declined a re-elec-  
tion, and this honor was given  
to Fred Turner.

In the discussion of basket-  
ball for the coming season, some  
apprehension was expressed re-  
garding the international play  
between the Union Jacks and  
the teams from Northern Mon-  
tana. The stringency of the  
laws respecting travel back  
and forth and also the control  
of money may make these games  
next to impossible, and in that  
event the effectiveness of the  
Jacks as a drawing card for  
winter basketball would be  
greatly impaired. There is no  
definite ruling as yet with re-  
spect to this question, and it  
is hoped that arrangements can  
be made for the interchange of  
games which has been so much  
appreciated by basketball fans  
of Raymond for a long number  
of years past.

Born to Mr. and Mrs. Jos.  
Chato, Saturday morning Sept.  
21st, a baby girl. Mother and  
daughter are doing nicely.

"Poley" Hawkins is driving  
the bus again this fall while  
the campaign is on and Hamp  
Witbeck is kept busy in the  
sugar warehouse.

# Help smask Hitler

This New  
**WAR SAVINGS PLEDGE**  
has been mailed to you

For each monthly deduction of  
\$4 you receive a certificate for: \$5  
\$8 " " " " " \$10  
\$20 " " " " " \$25  
\$40 " " " " " \$50

#### SIGN UP FOR THE DURATION in Canada's Army of 2,000,000 Regular War-Savers

Be one of the first to enlist. You will be receiving your  
official enlistment blank—the new War Savings Pledge.  
Use it to instruct your bank to make purchases of War  
Savings Certificates for you every month — automa-  
tically. Your bank looks after everything for you—sends  
your money to Ottawa each month, and the Certificates  
are mailed direct to the registered holder. There is no  
charge for this service.

Here is an effective way to *serve*—and a sure way to  
*save*. And remember, too, you are not giving your  
money, but *lending* it, and at a good profit to yourself:  
a full 25% in 7½ years! So watch the mail for this  
new official War Savings Pledge. When it arrives, use  
it to Help Smash Hitler. Additional Pledges are avail-  
able at your bank or from your local War Savings Com-  
mittee. Sign up now!
